

Name _____

Practice and Study Record

Directions: You are to keep track of your practice and study hours every week. You are only required to practice for 100 minutes a week outside of rehearsal. Additionally, you are not permitted to use band as an excuse to be unprepared for your other courses. Every time that you do homework, or study for a test, write down the time that you began, and the time that you finished. Do you have to study or practice everyday? No, but make sure that you keep up with what you do and when. These study records are due to Mr. Tulbert at the beginning of class each Monday. These records will count for 15 percent of your overall average.
